

Matching Gifts

1. What is a matching gift?

A matching gift is a charitable donation by a corporation that matches an employee's donation to an eligible nonprofit organization, most often dollar for dollar. Thousands of companies across the United States (and some companies internationally) offer matching gift programs to their employees as part of a corporate giving philanthropy. This means millions of individuals are eligible to participate in a matching gift program. In addition, 65% of Fortune 500 companies offer a matching gift program, and some companies even double, triple, or quadruple donations!

2. Why are matching gifts important?

Matching gifts are valuable because they double gifts for your fundraising and the non-profit. It gives you more bang for your fundraising, so to speak. Your organization will receive two donations for the work of soliciting one, and donors love knowing their gifts went twice as far.

3. How do I receive a matching gift?

Ask your employer if the company has a matching gift program; ask your donors if their company has a matching gift program. If they do, follow the simple steps below to ensure you are maximizing your fundraising efforts.

- **Step 1:** Complete the required paperwork for your company; note that each company has their own form. Make sure your donors have completed any required paperwork as well.
- **Step 2:** Email BWHteam@partners.org the confirmation email or document that a matching gift was submitted from 'X' company, in the amount of '\$X' from 'X' employee/donor. If a confirmation document was not received, please have the donor email the Brigham with the above information confirming they submitted the request.
